

Personal Designs:

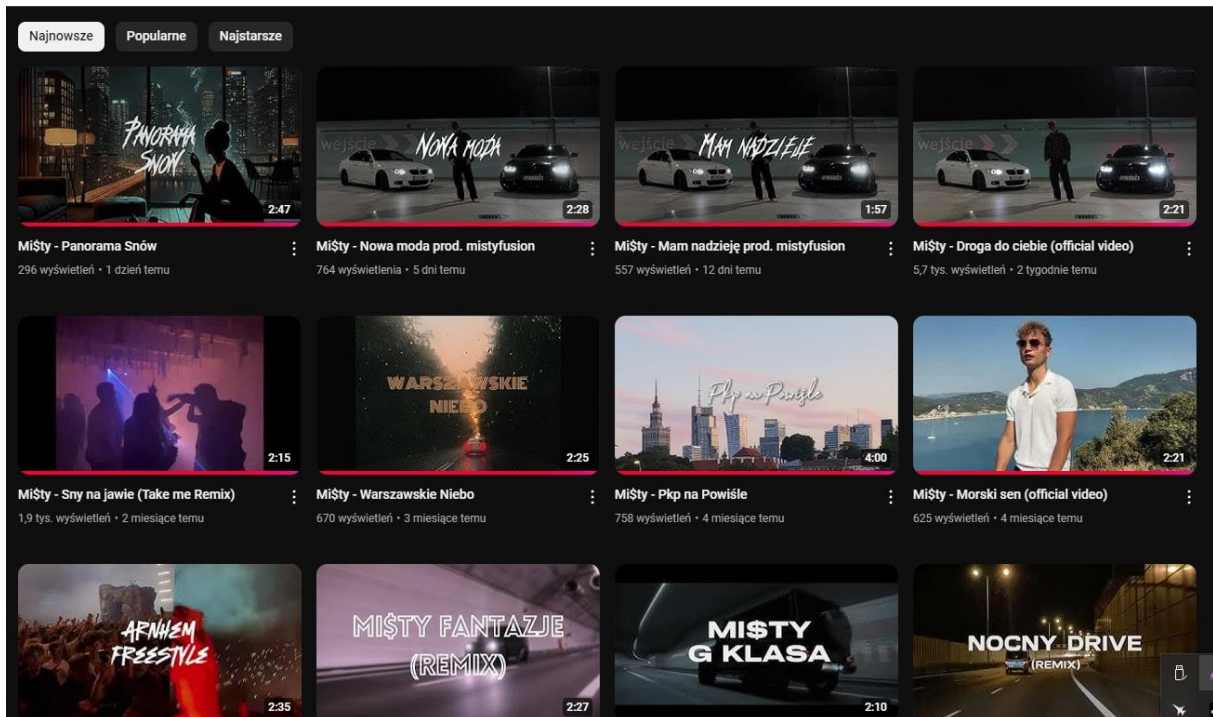

This is the photo from the album cover that I designed. My friend took the photo using a camera I borrowed from Fontys, and I taught him how to use it. I organized the shoot during Christmas in Poland while I was filming the music video for the album.

This is the visualizer I created for one of my recent songs. I used AI and designed it with tools like CapCut and Canva:

I created all the thumbnails, videos, and visualizers for my songs. I designed and edited them to match the aesthetic of each track, ensuring they were visually appealing and aligned with the theme of my music:

Through the entire semester, I also consistently developed my social media presence linked to my YouTube channel. I now have 63k followers on TikTok and 16k subscribers on YouTube. On TikTok, I've been gathering a large number of views. Since September, I've generated around 800,000 views in total on TikTok:

Here is a link to a video showing my Tiktok profile:
